

SEDO
INTELLIGENT FISHING TACKLE

PRODUCT CATALOG
2026

The **BlueRay Ultra Power headlamp** is primarily designed for carp anglers but can be effectively used for any type of fishing. The powerful illumination is provided by six premium LED light sources: three white 5500K Power LEDs and three Power Blue LEDs operating at a 450 nm wavelength.

The special blue light creates a fluorescent effect specifically with SEDO Aqua Ultra and Skyline fishing lines, ensuring maximum visibility. This effect is guaranteed when used with SEDO Fishing products.

SEDO Fishing Line Luminescence and Colors at Night:

Yellow line: Fluorescent yellow

Orange line: Fluorescent orange

Green line: Fluorescent green

The blue light ensures perfect visibility at night for the human eye when illuminating the fishing line. Fish can perceive blue light, but it does not irritate them, keeping them calm. The blue light is not ultraviolet, so it is harmless to human skin and eyes.

⚠ Warning: Never shine the headlamp directly into a human eye or look directly into the beam. The manufacturer holds no responsibility for any consequences resulting from improper use.

The lamp has an IP66 rating, making it water-resistant and shockproof up to a height of 1.5 meters.

HOOKS

SEDO strives to meet the needs of the modern, thoughtful carp angler

Our end tackle and hook types provide a wide range of reliable solutions for all types of anglers, from seasoned pros to the enthusiastic beginners. Our products especially serve sophisticated carp fishermen who are constantly monitoring the behavior of the fish and are therefore ready to adapt to changing circumstances. Whichever solution becomes necessary, they need the end tackle range to customize just the right solution.

PIECE / PACKAGE

10

- **Teflon coated with reinforced construction**
- **Straight hook point with extreme sharpness**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

This highly versatile hook type is well known to be suitable for any situation. A long, straight shank and needle-sharp hook point ensure perfect grip. The straight hook shank and ultra-light construction are the perfect combination to land even the wariest of fish, no matter how carefully they bite. The hook will perform excellently under extreme strain due to its forged iron construction, which makes it almost indestructible. The SEDO Claw Point Hook is recommended for any bottom, snowman, or pop-up presentations. Finish the rig with the SEDO Black Line Aligner for absolute perfection.

PIECE / PACKAGE

10

- **Teflon coated with reinforced construction**
- **Straight hook point with extreme sharpness**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

The CurvX is SEDO's flagship fishing hook. It immediately hooks the fish on a bite, even without an aligner. It features a bent shaft, straight, long hook point, and reinforced construction. Suitable for either Ronnie Rigs or German Rigs, and ideal for bottom or snowman presentations. The CurvX promises a strong and secure hold in all situations, avoiding snags and underwater obstacles with ease. Finish the rig with SEDO's Black Line Aligner for absolute perfection.

10

- **Teflon coated with reinforced construction**
- **Bent hook point**
- **Eye at 20-degree bend**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

The SEDO Krank Fishing Hook boasts a style that needs no introduction. It is an essential kit for anglers presenting floating-buoyant baits, and can be used in D-rigs, Zig-rigs, popup, or snowman presentations. The Krank has a short stem and a wide gap, helping it to get a perfect hook hold during a bite every time, even with smaller hook sizes. The hook is designed to catch into the bottom lip of the fish and hold firmly during the fight.

Krank Chod

- **Teflon-coated with reinforced construction**
- **Bent hook point**
- **Eye at 20-degree bend, Chod Style**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

The SEDO Krank Chod fishing hook is the absolute pinnacle in buoyant bait presentation. This hook is specifically designed for presenting buoyant baits even in heavy weeds or on any bottom conditions. In England the current favourite style of bait presentation is the Chod Rig. The outward bent hook eye will help the stiff hook-link stay in the perfect angle and ready for a bite at any time. Provides the perfect hook turn the first time, which makes this hook hard for the fish to eject. Popular bouyant hook-baits are pop-ups, artificial baits and dipped foams. Recommended for method feeder fishing in the smaller sizes.

8

10

12

PIECE / PACKAGE

10

- **Black nickel coating – discreet, non-reflective surface**
- **Short shank, wide gape – stable and deep hook holds**
- **Professional, extra durable, chemically sharpened hook point**
- **5° in-turned shank – better turning and more secure hook retention**
- **Reinforced steel, industrial forging**
- **Available sizes: 4, 6, 8, 10, 12**
- **Packaging: 10 pcs / pack**

The SEDO Krank Master Black Edition Hook is a premium carp hook that combines a short shank and wide gape to ensure fast, deep and stable hook holds. This hook was developed specifically for targeting big carp, where secure hooking and reliability are essential.

The black nickel coating provides a discreet, non-reflective surface, giving the hook a natural appearance underwater and making it invisible even to the wariest carp. The professional, extra durable and chemically sharpened hook point guarantees lightning-fast penetration and retains its sharpness over the long term. The 5° in-turned shank promotes optimal hook turning, ensuring the fish remains securely hooked throughout the fight. The reinforced steel structure, produced with industrial forging, provides exceptional strength and durability. The SEDO Krank Master Black Edition Hook is the ideal choice for all carp rigs where discretion, secure hooking and uncompromising reliability are required.

Open Water LS

AVAILABLE SIZES

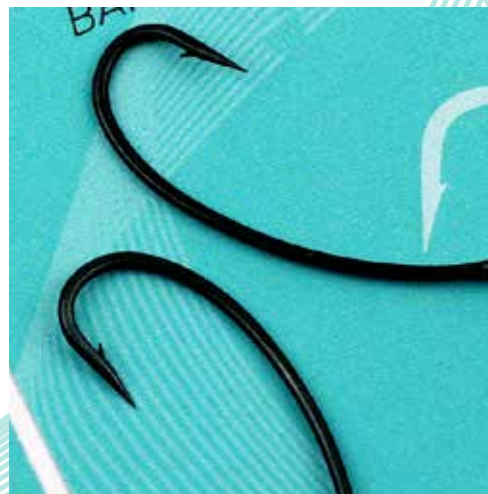

4

6

8

PIECE / PACKAGE

10

- **Teflon coated with reinforced construction**
- **Straight hook point with extreme sharpness**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

The SEDO Open Water LS is the absolute best hook you can use in situations where snags and underwater vegetation is not an issue. The unique shape makes the hook catch on any part of the fish's mouth, whether concave or convex, making it virtually ejection proof. For even better performance, finish the rig with a SEDO Black Line Aligner. Holds firmly after the bite until the end of the fight. Recommended for bottom and pop-up presentations.

Long Bow

AVAILABLE SIZES

8

PIECE / PACKAGE

10

- **Teflon-coated with reinforced construction**
- **Straight hook point with extreme sharpness**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**
- **Eye at 10-degree bend**

The SEDO Long Bow Hook will fool even the most cautiously feeding of fish. The longer shank design will provide an instant hook hold that is impossible for the fish to eject on the very first bite. The longer shank provides for a perfect hook turn while the sharp edge secures the hook hold perfectly every time. Suitable for all presentations and situations. Perfect for D-Rigs or even Blow Back Rigs. Complete the hook with the Sedo KickR aligner for absolute perfection.

Fishing Hooks - SEDO Intelligent Fishing Tackle

Tilted

- **Teflon coated with reinforced construction**
- **Bent hook point**
- **Eye at 15-degree bend**
- **Ultra-light**
- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

The SEDQ Tilted Fishing Hook's design is a combination of two popular hook styles: the Wide Gape and Anti-Snag hooks. The Tilted Hook is angled 15 degrees inward, resulting in the hook point and hook shank closing a smaller bend than the hook bend itself. This gives the hook great stability, and the chances of losing the fish are greatly minimized. The Tilted Hook can be used in a wide variety of applications and situations: It can be deployed on snag or wild waters, as well as gravel pits. Recommended for all bottom, snowman, or pop-up presentations. Finish the rig with the SEDQ Black Line Aligner for absolute perfection.

10

- Teflon coated with reinforced construction
- Improved material thickness for the most extreme situations
- Mid-range hook shank
- Anti-eject design
- Straight hook point
- Advanced steel technology and industrial forging process for durability
- Chemically sharpened

The SEDO, Wide Claw is a truly universal hook design. The most sought-after attributes by anglers in one hook. Straight-long hook point, wide hook gap, a mid-range hook shank and an improved material thickness designed all in one for a better hook hold. The improved material thickness makes this hook the perfect choice for even the most unforgiving terrain and situation. Endless versatility for pop-up, snow man or bottom bait presentations. Finish the rig with the SEDO Black Line Aligner for absolute perfection and an even more improved performance.

- **Advanced steel technology and industrial forging process for durability**
- **Chemically sharpened**

The SEDO Wide Gape Extreme Fishing Hook is an excellent choice for extreme environments and wild-water fishing. Due to its reinforced structure, the hook stays in place under all circumstances, while the point of the hook remains perfectly sharp. Wide-gape is the most popular hook style among carp anglers—and this hook perfects that style. The U-shaped design and the inward direction of the eye ensure a strong hold during runs and while fighting fish. For an even more perfect rig, we recommend SEDO's KickR hook aligner. Ideal for bottom or snowman hook-bait presentations, as well as for any rig you like.

- **Hook shaft bent at 5° for better stability and hook hold**

The SEDO, Feeder Super Wide Hook is perfect for any session from early spring to late fall. Ultra-sharp and light weight with a Teflon coating for reinforcement. The hook shaft bent at 5° paired with an extra wide hook gap for a deeper and faster hook hold. Due to its light weight even the smallest of buoyant baits will lift it up from the bottom, also very effective with live baits (maggots, larvae, etc...) when paired with a SEDO, Double Barbed Bait Spike for bait attachment. Whether feeder or match fishing, small fish or big fish, this hook will outperform the competition in every situation. Being mindful of fish safety, this hook is barbless. Finish the rig with the SEDO - Feeder mini black line aligner or with a SEDO - KickR for an even better hook turn.

- **Universal design for all application**
- **Inward bent hook point and hook eye**

The SEDO All Star Method Hook a truly universal hook recommended for all types of applications in feeder and method fishing while also great for float fishing. Perfect choice for a single corn or pellet presentation. The inward bent and extremely sharp hook point with the 10-degree bend under the hook eye will provide an instant and strong hook hold on any bite. Light but strong while very versatile in all situations. Recommended for all hobby and competition anglers alike.

- **Chemically sharpened**
- **Reinforced-Teflon construction**
- **Advanced forging process for better durability**
- **Perfect for targeting bigger fish**
- **Inward bent hook point**
- **20-degree outward bent hook eye**

The SEDO Power Carp Hook is perfect for braided or mono, long or short hook-links. The unique outward bent hook eye guides the hook-link perfectly during a bite and fighting fish providing constant tension. The bigger sizes are recommended for grass carp and carp in the warmer months while the smaller sizes are perfect for the colder seasons still targeting bigger fish. Recommended for pop-up, wafter, plastic bait, and corn presentations.

The SEDO Super Wide Hook is perfect for braided or mono, long or short hook-links. The unique outward bent hook eye guides the hook-link perfectly during a bite and fighting fish providing constant tension. Turns and hold faster into the fish's mouth than other hooks with an inward bent and off-set hook point. The bigger sizes are recommended for grass carp and carp with any pellet, pop-up, or quick stop presentations. The smaller sizes are perfect paired up with any 5-6mm hook or live bait-bait in any competition or cold-water situation for targeting smaller fish.

Titanium Hook Master Set **PREMIUM HOOK SHARPENING KIT**

PIECE / PACKAGE

6pcs

- EVA box – practical, durable storage case
- 30X magnifier – for precise inspection of the hook point
- Three-stage sharpening system:
 - o Step 1: metal hook sharpener for initial shaping
 - o Step 2: coarse sandstone sharpener for fast material removal
 - o Step 3: fine sandstone sharpener for a razor-sharp hook point
- 1 marker pen – to blacken the hook point for extra camouflage
- 1 Sedo turquoise hook vice – with non-slip grip for stable hook holding

Előnyök:

- Complete set with all tools required for professional hook sharpening
- Three-stage sharpening for a perfect, razor-sharp hook point
- Magnifier allows instant inspection of the hook condition
- Marker pen lets the hook point be discreetly blackened, making it almost invisible in the water
- Hook vice with non-slip grip ensures a secure hold while sharpening
- Organized and protected in an EVA box – always ready at the bank

The SEDO Titanium Hook Master Set is a professional hook sharpening kit that includes everything needed for precise hook maintenance. The central element of the set is the three-stage sharpening system, which ensures the hook point can be honed to razor sharpness every time.

The first step is the metal hook sharpener, which provides the basic shape. Next comes the coarse sandstone sharpener, which quickly prepares the surface. The process is completed with the fine sandstone sharpener, which creates a perfectly precise, extremely sharp hook point.

With the 30X magnifier, even the smallest details can be checked, while the Sedo turquoise hook vice with its comfortable, non-slip grip provides a secure hold on the hook during sharpening. The marker pen allows the hook point to be blackened, ensuring extra camouflage underwater.

The entire kit is supplied in a durable EVA box, which protects and organizes the tools. The SEDO Titanium Hook Master Set is the best choice for anglers who always want to arrive at the water with the sharpest and most precise hooks.

Feeder Fast Bait Spike – Anti Knot Single

AVAILABLE SIZES [mm]

7

10

15

PIECE / PACKAGE

10

- **Fast Bait Spike – provides quick and knotless hook attachment**
- **Silicone ring for easy placement of the bait spike**
- **Can be changed in seconds on the hook – directly on the hooklink**
- **Bait spike size can be changed instantly without hook-link replacement**
- **Suitable for particles, seeds, feeder pop-ups and wafers**
- **Available sizes: 7 mm, 10 mm, 15 mm**

The SEDO Feeder Fast Bait Spike – Anti Knot is a practical and innovative solution that makes attaching the bait spike to the hook easier and faster. Thanks to the silicone ring, the spike can be mounted on the hook without knots, and if necessary, it can be changed in seconds – directly on the hook, without replacing the hooklink. This offers a time-saving, convenient and reliable solution for every feeder angler.

The Anti Knot system ensures that the bait moves freely on the spike without tangling, providing a more natural and attractive presentation. Perfect for mounting particles, seeds, feeder pop-ups and wafers, making it widely applicable for different fishing situations.

The product is available in three sizes (7 mm, 10 mm and 15 mm), allowing easy adjustment to the chosen bait and hook size. Made of strong, durable material for long-term reliability. Bait spike size changes can be made instantly on the hook, without replacing the hook or hooklink.

Feeder Fast Bait Spike – Anti Knot – Table

10

15

PIECE / PACKAGE

10

- **Fast Bait Spike – quick and knotless hook attachment**
- **Silicone ring for easy placement of the bait spike**
- **Table pack – organized storage, spikes will not scatter**
- **Can be changed in seconds on the hook – directly on the hooklink**
- **Suitable for particles, seeds, feeder pop-ups and wafers**
- **Available sizes: 7 mm, 10 mm, 15 mm**
- **Bait spike size change – without hook or hooklink replacement**

The SEDO Feeder Fast Bait Spike – Anti Knot – Table is the proven knotless bait spike in a practical table pack. The spikes come in an organized form, so the right size (7 mm, 10 mm, 15 mm) is always at hand, and unlike loose packs, they will not scatter or get lost at the waterside. This provides a cleaner, safer and more practical solution in the tackle box.

Thanks to the silicone ring, the spikes can be mounted on the hook without knots, and if necessary, they can be changed in seconds – directly on the hook, without replacing the hooklink.

The Anti Knot system ensures that the bait moves naturally without tangling, always providing a perfect presentation.

Perfectly suitable for mounting particles, seeds, feeder pop-ups and wafers, making it an extremely versatile and universal accessory.

Ronnie Quick Connect Swivel

AVAILABLE SIZES

8

PIECE / PACKAGE

10

- **Non-reflective coating**
- **Reusable**
- **Specifically designed for Ronnie-Rig presentations**
- **Heavy duty construction**
- **Big O-ring for natural movement**

The SEDO Ronnie Swivel is specifically designed to quickly achieve a perfect and efficient Ronnie-Rig presentation. Attach your hook to the swivel then use the SEDO Extreme Shrink Tube to hold it in place. Recommended hooks are the SEDO, Krank and CurvX hooks for a perfect pop-up presentation. Use some lead putty to balance the rig seamlessly for a natural appearance. The Ronnie-Rig is highly recommended under conditions where the bites are weak and hard to come by.

Rig accessories, swivels - SEDO Intelligent Fishing Tackle

Ronnie Quick Connect Swivel – Light

AVAILABLE SIZES

Light

PIECE / PACKAGE

10

- **Quick-change, ringless design**
- **Ideal for Ronnie and Spinner rigs**
- **Lightweight (light) version with discreet appearance**
- **Made of strong-durable material**
- **Matte black, non-reflective finish**

The SEDO, Ronnie Quick Connect Swivel – Light is a special quick-change swivel developed specifically for Ronnie and Spinner rigs. Due to its ringless design, it is even more compact and lighter, and the hook can be attached directly to the swivel, providing a more natural bait presentation. In addition, it allows smaller baits to be offered properly without making the rig too heavy!

The quick-change solution makes it possible to replace the hook in seconds while keeping the rig stable and reliable. The matte black, non-reflective coating ensures it remains unnoticed by carp, thus increasing the chances of bites.

Rig accessories, swivels - SEDO Intelligent Fishing Tackle

Quick Lock Twister Swivel

AVAILABLE SIZES

universal

PIECE / PACKAGE

10

- **Quick Lock Twister system – extra fast and secure rig change**
- **Screw design – the hooklink cannot come loose**
- **Made of strong, durable material**
- **Matte black, non-reflective coating**
- **Ideal for modern carp rigs, both free-running and lead clip versions**

The SEDO Quick Lock Twister Swivel is a practical quick-change swivel designed specifically to make hooklink replacement faster and more secure. The essence of the Quick Lock Twister system is the screw design, which allows you to attach or change the hooklink in seconds, while ensuring it cannot come loose from the swivel under any circumstances. This provides maximum security even when playing large fish. It is highly versatile: ideal for modern carp rigs, whether free-running or lead clip setups. The strong, durable material and reliable mechanism guarantee stable attachment without the need for additional accessories. The matte black, non-reflective coating blends discreetly into the underwater environment, avoiding suspicion from fish.

Big carp fishing is a diverse sport that can be pursued on [redacted] big, open waters, densely overgrown shorelines, in deep-water mines/gravel pits, or in tiny ponds.

Rig accessories, swivels - SEDO Intelligent Fishing Tackle

Feeder Mono Multi Lock System

AVAILABLE SIZES

S

L

PIECE / PACKAGE

5 set

- Prevents mono hooklinks from tightening inside the method feeder
- Mono hooklink performs similarly to braided hooklinks
- Quick and easy hooklink change during fishing
- Secure hold with reliable safety clip system
- Strong and durable construction
- Suitable for long-distance casting
- Built-in swivel reduces line twist
- Anti-tangle design during casting
- Optimized for feeder and method feeder fishing

The SEDO Feeder Mono Multi Lock System is an innovative feeder rig component designed to prevent mono hooklinks from tightening inside the method feeder.

With traditional systems, the bait and hook often tighten the hooklink immediately after casting. As the groundbait begins to break down, the rig can pull the bait out of the feeder too early. Thanks to the Multi Lock System design, the mono hooklink remains slack, allowing the bait and hook to stay inside the feeder during breakdown — similar to braided hooklinks. It does not tighten or move prematurely, but is released naturally at the right moment.

Rig accessories, swivels - SEDO Intelligent Fishing Tackle

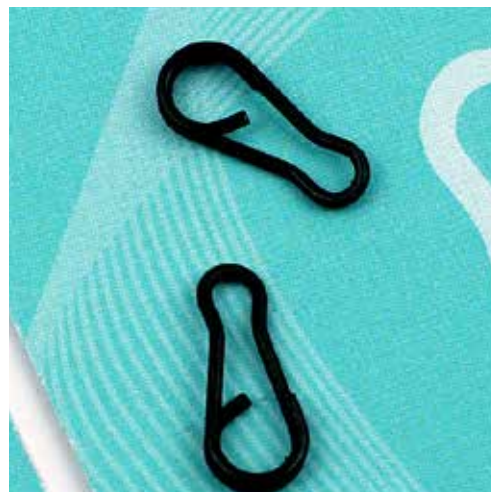

Speed Quick Link

AVAILABLE SIZES

8

PIECE / PACKAGE

10

- **Non-reflective color**
- **Enables quick rig changes**
- **Reinforced, heavy-duty construction**

Quick Lock Safety Swivel Long Barrell

PIECE / PACKAGE

5

- **Non-reflective color**
- **Quick change swivel**
- **Reinforced heavy-duty construction**
- **Safety clip**
- **Strong hold under the most extreme situations**
- **5/p**

Non reflective surface will stay invisible on the lake bed. For a strong and secure anti-tangle set-up, use with SEDO, Anti Tangle Sleeve (long or mini). Compatible with the SEDO, Lead Clips and Running Rig systems. The swivel will lock into both clip systems perfectly for a secure cast and presentation and will come free after a bite. The safety quick link will securely hold the hook-link while playing fish. Recommended where underwater vegetation, snags could provide difficulties and when we would like our set-up to be free running after a bite.

Rig accessories, swivels - SEDO Intelligent Fishing Tackle

Helicopter Quick Lock Swivel - Long Barell

AVAILABLE SIZES

8

PIECE / PACKAGE

10

- **Non-reflective color**
- **Recommended for long range situations**
- **Quick link**
- **Reinforced construction**
- **Enlarged turn-swivel ring**

Non reflective surface will stay invisible on the lake bed. For a strong and secure anti-tangle set-up, use with SEDQ, Anti Tangle Sleeve (long or mini). The enlarged eye will make this swivel the perfect choice for a helicopter set-up or any long-range work that require a guaranteed tangle free cast. Paired up with SEDQ, Helicopter Beads Adapter provides smooth movement and tangle free mechanics while presenting our hook-bait as we intended it on the bottom.

Perfect for floating-buoyant baits, and can be used in D-rigs, Zig-rigs, popup, or snowman presentations. Our Shadow hook-link, micro-woven material will ensure that even under the most extreme situations we can play the fish safely without cut-offs. The barbless hook helps promotes fish safety by causing a smaller entry wound and less damage to the mouth of the fish during the fight.

- **Wide Gape Extreme Hook**
- **Ronnie connect swivel**
- **KickR colors aligner Pink&Yellow**
- **Fast Bait Screw with round ring**
- **Invisible bait stop**
- **Shadow Hook Link - 25lb Camo Brown**
- **2/p**
- **Available in sizes 4, 6**

The Ronnie Rig is the absolute number one presentation in any situation when it comes to buoyant hook-baits. Very effective in warming or cooling waters or when the fish are just more careful and bites slow. The rig is constructed from our very best components including the Wide Gape Extreme Hook. Straight hook point and an aggressive design will ensure that the hook will set on the first contact every time. For a high-viz effect we added our pink and yellow hook aligners that will help to blend in, or stand out more effectively.

SEDQ TIP: Balance the rig and pop-up with tungsten putty to create a slow sinking set-up.

Wherever our fishing takes us, the goal is the same: catching the biggest carp and letting it go unharmed, while enjoying nature and preserving this wonderful sport for the next generation.

- **Black nickel coating – discreet, non-reflective surface**
- **Short shank, wide gape – stable and deep hook holds**
- **Professional, extra durable, chemically sharpened point**
- **5° in-turned shank – better turning and more secure hook retention**
- **Reinforced steel structure, industrial forging**
- **Available sizes: 4, 6, 8, 10, 12 – barbed versions**
- **Size 4 and 6 hooks tied with 0.16 mm braided line**
- **Size 8, 10 and 12 hooks tied with 0.14 mm braided line**
- **Each rig equipped with a 10 mm bait spike, with silicone tube on the hook bend**
- **Packaging: 3 pcs / pack**

The SEDQ Krank Master Black Edition is a premium pre-tied method feeder rig that combines the legendary Krank hook pattern with the demands of modern carp fishing. The short shank

and wide gape ensure stable and deep hook holds, even when targeting the largest carp.

The hook's black nickel coating is discreet and non-reflective, giving it a natural underwater appearance that does not arouse suspicion in wary fish. The professional, extra durable and chemically sharpened point penetrates extremely quickly and retains its sharpness for a long time. The 5° in-turned shank helps the hook turn perfectly, keeping the fish securely hooked until the end of the fight.

The rigs are tied with hooklengths optimized for size and use: size 4 and 6 hooks are tied with 0.16 mm braided line, while size 8, 10 and 12 hooks are tied with 0.14 mm braided line. Each rig is fitted with a 10 mm bait spike and silicone tube on the hook bend for maximum stability. The spike knots are factory-glued, minimizing the risk of the spike coming loose.

The Krank Master Black Edition is supplied in packs of 3, making it a ready-to-use, reliable and professional solution for method and feeder fishing.

RIG SYSTEMS, NEEDLE, BOILIE STOPS

Carp fishing can be extremely complicated

Big carp fishing is a diverse sport that can be pursued on big, open waters, densely overgrown shorelines, in deep-water mines/gravel pits, or in tiny ponds. Wherever our fishing takes us, the goal is the same: catching the biggest carp and letting it go unharmed, while enjoying nature and preserving this wonderful sport for the next generation. With that in mind, SEDO – Intelligent Fishing Tackle is a major advocate for nature conservation and angler education while providing intelligent solutions.

Anti Tangle Sleeve Mini

AVAILABLE SIZES

mini

PIECE / PACKAGE

20

- **Strong rubber material**
- **Extra-long life; reusable**
- **Stable hold**
- **Shortened design for shorter hook-links**

When installed on the hook-link swivel, the SEDO Anti-Tangle Sleeve prevents the hook-link from twisting back onto the main line, avoiding any frustrating tangles. This accessory pairs perfectly with any swivel, including SEDO's Rolling Swivels or Quick-Lock Swivels. It is essential for any carp fishing rig, whether with short-range or long-distance fishing. The sleeve will also help to position the rig perfectly upon reaching the bottom, which is very important for proper presentation and increasing the likelihood of bites. Recommended for any hook-link material, including braided, mono, or fluorocarbon.

D-Rig Aligner Long

AVAILABLE SIZES

long

PIECE / PACKAGE

10

- **Perfect hook turn every time**
- **Strong rubber material**
- **Special D-Rig Design**
- **Extra-long life; reusable**

The D-Rig Aligner provides an efficient and fast solution for any D-Rig presentation. Many people either don't know how to properly make one or waste a lot of time on making the right D-Rig setup, so the team at SEDQ came up with a quick and easy solution. The D-Rig Aligner always keeps our hook in the right position for a perfect hook turn as this rig combination is almost impossible for fish to eject. You can install a metal ring, quick bait screw and even a bait swivel onto the rubber "D" aligner. Install on the hook of your choice then just attach any bait to the rig. The D-Rig Aligner can be used for any bottom or pop-up hook bait presentations!

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Extreme Shrink Tube

AVAILABLE SIZES [mm]

2.0-0.9

PIECE / PACKAGE

10

- **Hardens after cooling down**
- **Extreme shrink**
- **Extra-long life**

The SEDQ Extreme Shrink Tube provides versatile and compact solutions for carp anglers. The shrink tube can be used as a line aligner in German or Ronnie Rigs providing a stable and solid hook-bait presentation every time. Heating shrinks the tube from 2mm to 0.9mm. Its special quality is that it hardens after cool down, which makes the sharpest of angles easily achievable. The tube can also be used to protect swivels and stabilize hook-links. Simply hold in position over steam until tube shrinks into the desired angle, then continue holding until it's cool and hardened. Compatible with any hook between sizes 2 and 8.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Flexible Silicone Rig Tube 2m

AVAILABLE SIZES [mm]

1.0

PIECE / PACKAGE

1

- **Compatible with all lead systems**
- **For hair rigs**
- **Strong rubber material**
- **Extra-long life; reusable**

The Silicone Rig Tube has several uses: It can stabilize and adjust hook-bait position on the hook bend or hook shank when using hair rigs, or it can be added to the last 30cm of the mainline for a tangle-free cast. The dark color blends completely into the water bed, making it invisible to any fish. Compatible with all lead-clip systems. External size is 2mm; inner tube size is 1mm.

Free Run Rig

SET / PACKAGE

5

- **Compatible with size 8 swivels**
- **Strong rubber material**
- **Extra-long life; reusable**

The SEDO Free-Run Rig lead system is recommended for extreme environments where you may not be able to pull your fish to the water surface instantly. It is designed specifically for fishing close to underwater snags, and for fish fleeing through aquatic plants and vegetation. The goal of the rig system is that the plastic loop will break off instantly upon a bite or run, setting the rig free, and minimizing the contact between the fish and the lead. the kit includes a free-run clip, free-run loop, and a speed link.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Hook Point Protector

PIECE / PACKAGE

20

- **Complete hook-point protection**
- **Compatible with 2-4-6-8-10 size hooks**
- **Extra-long life, reusable**
- **Recommended for any factory or manually sharpened hook.**

The SEDO - Hook Point protector is essential in protecting the most important part of our end tackle the hook point. Not uncommon during packing and transport that the end tackle suffers some unforeseen damages. The SEDO - Hook Point protector made from a especially durable material will ensure that our hook pint is intact and ready to go in any situation.

Lead Clip With Fixer

PIECE / PACKAGE

10

- **Highly durable high-grade material**
- **Extra-long life; reusable**
- **Versatile, reliable style**

The SEDQ Fixer Lead Clips embody the most widely used clip style by carp anglers, and fits perfectly with a number 8 swivel. An otherwise free-running rig can become fixed by installing the provided pegs, locking the swivel into the clip. High-grade plastic construction ensures the reinforced clip arm will hold strong – even in the most extreme situations, keeping the lead secure on the rig.

Line Aligner Long

AVAILABLE COLORS

black

PIECE / PACKAGE

10

- **Compatible with all hooks**
- **Strong rubber material**
- **Perfect hook turn**
- **Extra-long life; reusable**

The SEDO Line aligner is an indispensable accessory for the perfect rig and hook turn. The purpose of the Line Aligner is to quickly turn the hook into position for a perfect and strong hook hold every time. Compatible with all hooks, its dark color will stay invisible on the bottom. Due to its quality construction, the Line Aligner can be re-used many times with success on multiple hooks and rigs. Recommended for bottom, snowman, and pop-up hook-bait presentations.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Curved Long Line Aligner Black

PIECE / PACKAGE

10

- **Compatible with all hooks**
- **Durable rubber material**
- **Curved shape design**
- **High efficiency**
- **Perfect hook turn**
- **Extra-long life, reusable**

The SEDO Curved Line Aligner is more efficient and provides a better hook turn than regular aligners. The curved design will follow the shape of the fish's mouth until it is hooked during a bite. Quickly turns the hook into position for a perfect and strong hook hold. Due to its quality construction, the aligner can be re-used many times with success on multiple hooks and rigs. Recommended for bottom, snowman, and pop-up hook-bait presentations.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Silicone Sleeve Cover – Strong

PIECE / PACKAGE

10

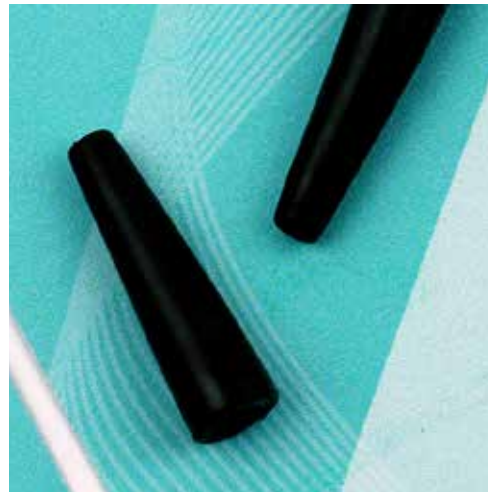

- **Durable and flexible silicone material**
- **Universal use**
- **Compatible with most swivels**

The SEDQ – Silicone Sleeve Cover is to protect our swivel from any external damages on any rig combination. Universal and compatible with most regular sized swivels. Can be customized, cut to any desired size, to fit any situation. Perfectly blends in with any rig improving stability and anti-tangle properties during long casts.

Tail Rubber

PIECE / PACKAGE

10

- **Compatible with lead clips**
- **Strong rubber material**
- **Extra-long life**
- **Firm hold**

The SEDO tail rubber keeps the lead safely attached to the lead clip and helps with stabilizing and securing the lead during casting and fighting fish. The reinforced rubber material will not break or crack under strain, providing peace of mind that your lead will not be lost. If you want the lead to be released upon action, just pull the tail rubber onto the clip very loosely--just enough for the cast--to ensure that the clip can drop the lead with ease.

Deep Turn KickR – Black Edition

PIECE / PACKAGE

5

- **Special hook aligner (KickR Long) design**
- **Black Edition – discreet black color**
- **25 mm long, can be trimmed to size**
- **Matte, non-reflective finish**
- **Durable, long-lasting material**
- **Deeper hook holds than average**

The Deep Turn KickR – Black Edition is a specially designed hook aligner that ensures the hook turns at the best possible angle and as quickly as possible inside the fish's mouth. This discreet black accessory increases the chances of secure hooking and provides more stable hook placement, especially when targeting cautious-feeding carp.

The factory 25 mm length of the Deep Turn KickR – Black Edition can be easily trimmed, making it perfectly adaptable to different hook sizes and rigs for optimal hooking. It is extremely simple to use: just slide it onto your hooklink and then over the hook eye, making sure that the inward-facing section aligns precisely with the hook point. This precise fit ensures the maximum efficiency of the KickR.

Its design allows natural bait presentation while ensuring aggressive hook turning. The matte, non-reflective finish blends perfectly into the underwater environment, remaining unnoticed by the fish. It is an ideal choice for modern carp rigs, where every detail counts.

Immitation Pop-Up Corn

AVAILABLE COLORS

natural yellow

AVAILABLE SIZES

L

XL

PIECE / PACKAGE

10

- **Extra Buoyant**
- **Natural appearance and color**
- **Soft, easy to work with**
- **Re-usable**
- **Can be soaked and dipped**
- **Available in L and XL sizes**

When we need to bring special attention to our hook bait the SEDQ – Immitation Pop-Up Corn is a perfect way to do so. Natural look and material that can be soaked or dipped into any choice of liquid for an even better attraction. Use as single hook bait for smaller hooks, with a boilie or add it to any bottom bait as an addition or it can even function as a boilie stopper on any hair rig. 2-3 pieces used at same time have a serious buoyancy so make sure to counter balance the hook-link properly. If the venue we are fishing at is known for fishing with particles and corn, this product is a must in our arsenal. Easily stored and re-usable for multiple rigs for future sessions.

Rig accessories, swivels - SEDO Intelligent Fishing Tackle

Imitation Popup **Double** Corn – Natural Yellow

AVAILABLE COLORS

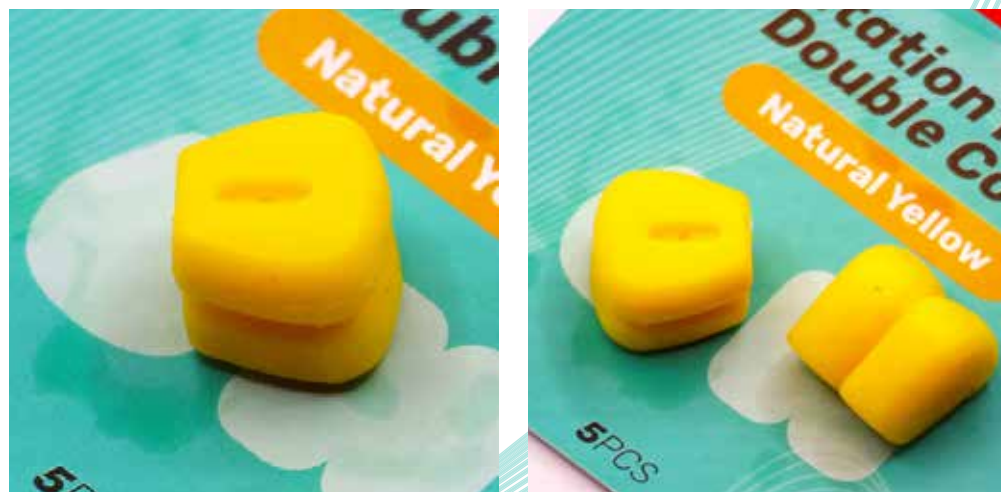

natural yellow

AVAILABLE SIZES

universal

PIECE / PACKAGE

5

- **Double lifelike artificial corn (popup version)**
- **Natural yellow color – realistic appearance**
- **Available in only 1 size for universal use**
- **Reusable, durable material**
- **Can be used alone or in combination with other baits**
- **Stopper slot design**

The SEDO Imitation Popup Double Corn – Natural Yellow is an extremely realistic floating artificial corn, an ideal choice for carp fishing. The natural yellow color perfectly imitates real sweetcorn or prepared corn used as bait, allowing you to trick even the wariest fish.

The double kernel design ensures better bait presentation and it is highly versatile, as it can be combined with boilies, pellets, or used on its own. Thanks to the popup version, the hook is always presented in the right position, increasing the chances of bites and the security of the hook hold.

This version is available in only one size, providing a universal solution for most fishing situations. Made of durable, reusable material, it offers a long-term, cost-effective alternative to natural baits. Recommended for use both in cold and warm conditions.

PIECE / PACKAGE

10

- **Basic component of a helicopter set-up**
- **For long range casts**
- **Fit over a turn or speed swivel**
- **Camo Green Color**
- **Knot protection**

The SEDQ, Helicopter Buffer Sleeve is a necessary part of a perfect helicopter set-up. Engineered for long range work and extreme distance casts. Aerodynamic design helps during casting while a snug fit over a speed or turn swivel protects the knot from any damage.

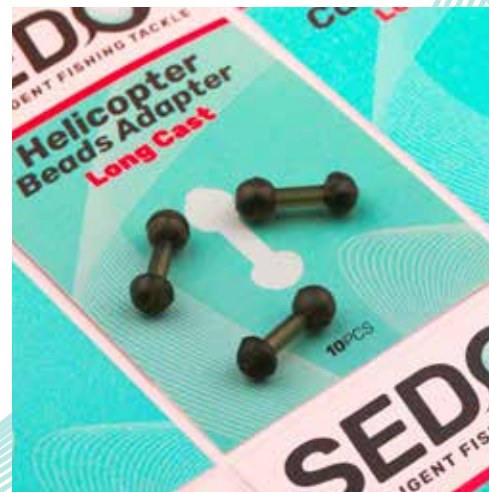

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Helicopter Beads Adapter Long Cast

PIECE / PACKAGE

10

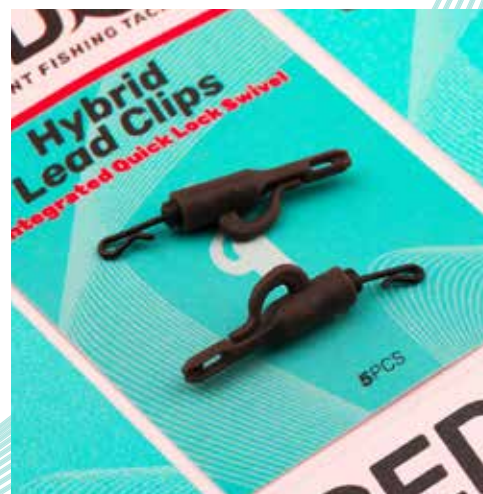

- **Basic component of a helicopter set-up**
- **For long range casts**
- **Camo Green Color**
- **Strong hold**
- **Compatible with SEDQ, Quick Long Swivel – Long barrel**
- **Removable beads**

The SEDQ, Helicopter Beads Adapter is a necessary part of a perfect helicopter set-up. Engineered for long range work and extreme distance casts. The upper bead can be removed to place A SEDQ, Helicopter Quick Long Swivel and re-installed after with ease. Recommended for lead core leaders.

Hybrid Lead Clips Integrated Quick Lock Swivel

PIECE / PACKAGE

5

- **Integrated quick lock swivel**
- **Lead drop-off system**
- **Compatible with lead-core or mono leaders.**
- **Recommended where snags, underwater objects or weed might be a problem**
- **Perfect for long range fishing**
- **5/p**

Very special lead clip system integrated with a quick lock swivel that guarantees that our lead will drop off after a bite. How tightly the rubber bead is pushed on to the swivel will determine how strong of an afterbite action we will achieve. The lead will come free immediately after a bite helping playing fish around weed, snags or any underwater obstacles.

PVA Tail Rubber PVA Bag Version

PIECE / PACKAGE

10

- For PVA bag systems
- Strong rubber material
- Compatible with any lead clip set-up.
- 10/p

The SEDO PVA tail rubber is a must in any lead clip set-up with PVA bags incorporated. The stiff tail rubber will help in securing the PVA bag during casting. The design allows the PVA bag to be easily attached to the tail rubber.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Small Tail rubber with Lead Clips Set

PIECE / PACKAGE

10

- Boilie or feeder fishing
- Strong rubber material
- Extra-long life
- Firm hold
- 10pcs

The SEDQ tail rubber keeps the lead safely attached to the lead clip and helps with stabilizing and securing the lead or feeder during casting and fighting fish. The reinforced rubber material will not break or crack under strain, providing peace of mind that your lead or feeder will not be lost. If you want the lead to be released upon action, just pull the tail rubber onto the clip very loosely—just enough for the cast—to ensure that the clip can drop the lead or feeder with ease.

Quick Release Free Running Set

PIECE / PACKAGE

4 set/package

- **Completely free running**
- **Rapid release**
- **Camo color**
- **For all situations**
- **4/p**

The SEDQ, Quick Release Free Running Set is an absolute must in fish care and fish safety situations. Suitable for any terrain let that be snaggy, weedy, open water or commercial pits. After a bite the bead opens rapidly to be a free running rig instantly. Dark color ensures the best camouflage on any bottom. Every pack includes 4 complete sets that includes the Quick Release Free Running Rig and Speed Links for our leads.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

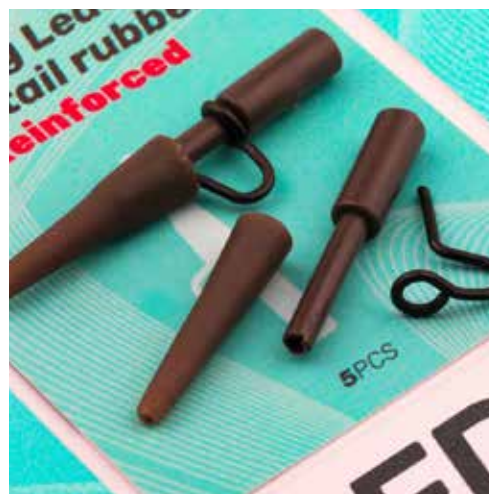

XCasting Lead Clip With Tail Rubber Reinforced

AVAILABLE COLORS

camo green

PIECE / PACKAGE

5

- Reinforced construction with tail rubber
- Extra strong and durable metal clip
- Non-reflective color
- For long range casts
- Camo green color
- 5/p

The SEDQ-XCasting Lead Clip is a special re-designed and reinforced lead clip for long range fishing. Designed to handle many times over the largest casting weights in today's modern carp fishing while also providing a secure hold during casting. Can be set-up as a lead drop off system where underwater vegetation, snags could provide difficulties.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Hook-Link Sinker Heavy

AVAILABLE COLORS

black

PIECE / PACKAGE

9

- Firm hold on any hook link material
- Castable
- Tungsten material
- 9/p

The SEDQ, Hook-Link Sinker is specifically designed to hold the hook link as close to the bottom as possible. The elongated shape and heavy tungsten material will provide tangle free contour to the lake or river bed. Recommended for any pop-up or bottom presentations.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Elastic Tungsten Putty

AVAILABLE COLORS

black

PIECE / PACKAGE

1

- **Easily pliable**
- **For any rig and presentation**
- **Non reflective color**
- **Firm hold**
- **Durable, reusable material**

The SEDQ, Elastic Tungsten Putty is a must have when we are talking about modern carp fishing. To weigh down hook-links, hooks or to critically balance any rig this putty is a necessary tool in any angler's arsenal. A firm and secure hold on any hook-link or swivel material will provide the peace of mind that our rig is perfectly presented under any circumstance.

ZIG Rig Complete Dark Set - Black

AVAILABLE COLORS

black

PIECE / PACKAGE

7

- **Zig Foam aligner 4p**
- **Zig Foam Full Tube 2p**
- **Zig Foam Tool**
- **High buoyancy - adjustable**
- **Dark Colors**
- **Perfect zig foam fitting**
- **Knotless design**

Targeting carp in the middle-upper layers of the water column with high buoyancy zig rigs is a very popular and effective technique. Carp spends more time in the upper layers of the water than on the bottom. For this very reason the SEDO Zig Rig Complete provides 5 full sets of zig-rig options. Each set includes 2 pieces of SEDO Full Foam Tube, 4 pieces of SEDO Zig Worm Aligner and 1 SEDO Zig Foam Tool. Each set includes a specific color and with 5 different colors available providing many options and combinations. The SEDO Zig Foam is very high buoyancy foam specifically designed for zig fishing for carp. In different depths, light conditions (sunrise-sunset, sunny, cloudy) we will need to adjust the color of our zig to be successful, sometimes changing the aligners to high-visual colors with dark foam and vice-versa. If we keep adjusting, trying different colors and depths, success is assured.

Boilie Inox Fast Drill Needle

AVAILABLE COLORS

yellow

PIECE / PACKAGE

1

- Corrosion-proof stainless steel
- Safe grip
- Usable with any baits
- Inox material
- Sharpened edge

The corrosion-free, stainless steel inox material provides protection against rust throughout the life of the product. Easily drills the hardest and softest of hook-baits without splitting them apart and while maintaining their factory-sharpened edge. Small, compact design.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

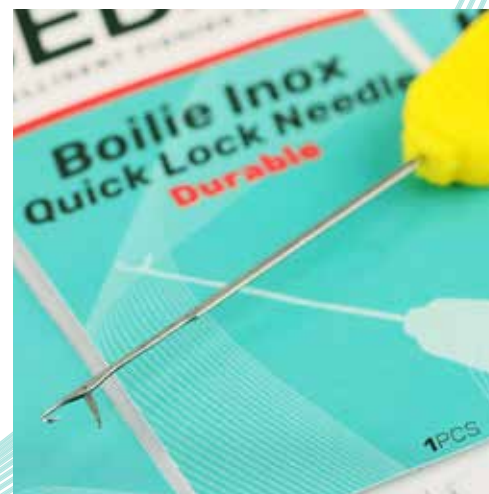

Boilie Inox Quick Lock Needle

AVAILABLE COLORS

yellow

PIECE / PACKAGE

1

- **Corrosion-proof stainless steel**
- **Safe grip**
- **Usable with any baits**
- **Inox material**
- **Quick Lock**

The corrosion-proof, stainless steel inox material provides protection against rust throughout the life of the product. The quick lock end tip will help to thread the hair loop through any hook-bait with ease. Then just fix the loop with a SEDQ, Boilie Hair Stopper on the bait and you are ready to go. The small diameter profile design will thread through the smallest of hook-baits (particles, pop-ups) up to the largest of boilies without splitting them apart.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

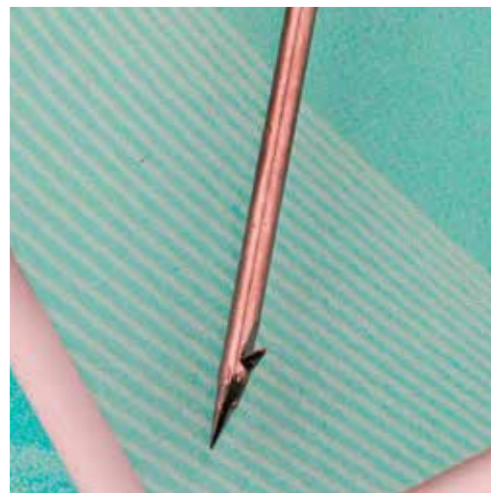

Boilie Inox Bait Needle - Hard Boilie

AVAILABLE COLORS

yellow

PIECE / PACKAGE

1

- **Corrosion-proof stainless steel**
- **Safe grip**
- **Usable with any baits even the hardest hook-baits**
- **Extra sharp**
- **Inox material**
- **Reinforced, heavy-duty construction**

This bait needle features stainless steel material that is corrosion-proof for durability and longevity. Reinforced heavy-duty construction to help bait with the hardest of hook-baits with ease. Safety grip helps prevent accidents during baiting.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Boilie Inox Quick Lock Needle - Long

AVAILABLE COLORS

yellow

PIECE / PACKAGE

1

- Corrosion-proof stainless steel
- Safe grip
- Usable with any baits
- Inox material
- Quick-lock
- Extra-long design for bigger baits or ready PVA rigs

This bait needle features stainless steel material that is corrosion-proof for durability and longevity. Boasts a quick-lock needle design for easy and quick baiting. The needle creates a very slim entry hole, enabling you to present small seeds as well as any large boilies on your hair rig, without danger of damaging or cracking it during baiting. Perfect for any PVA or ready-made PVA bags.

Fishing GT Braid Line Scissors

AVAILABLE COLORS

ultra orange color

PIECE / PACKAGE

1

- **Razor sharp serrated edge**
- **Acid resistant metal**
- **Ultra orange color**
- **Extra small and light**
- **Ergonomic design**
- **Perfect non-slip cut every time**

The SEDO – Fishing GT Braided Line Scissors starts with a razor sharp and serrated cutting edge that provides the perfect – non slip cut of even the toughest braided lines every time. Also perfect for monofil and fluorocarbon lines making it true versatile cutting tool. The ergonomic design of the handle provides comfort while the acid and corrosion resistant metal will outlast the test of time and the elements. Compact and light (weighing in at 13grams), it will fit every box or box compartment without compromising space. The ultra orange high vis color will make this tool easy to identify amongst others in the box and almost impossible to lose under any conditions. The design also includes 3 knot tying holes helping rig tying easier, and an edged SEDO logo for esthetics.

Cork Popup Stick

AVAILABLE SIZES

6x50mm

8x50mm

PIECE / PACKAGE

4

- **Natural**
- **Very buoyant**
- **Re-usable**
- **Recommended for 16-30mm hook baits and particles**
- **Easy cut**
- **Size: 6mm x 50mm and 8mm x 50mm**

The SEDQ Cork Pop-Up stick is the most natural way of replacing any pop-up, making any bottom bait into a wafter or critically balanced presentation fooling the wariest of fish. The natural color and material will blend in any situation perfectly. Chosen the right size drill and cork, drill out the middle of the hook-bait then insert the cork and push it all the way from one end to the other. Cut the access and done. Always check the buoyancy of the finished hook bait presentation!

XL - diam. 0.7mm

PIECE / PACKAGE

50

- Double crimp openings
- Dark anti flare color
- 0.5mm, 0.6mm or 0.7mm
- Knotless hook-link set-up

Double crimp openings for a knotless hook-link set-up. Used with the SEDQ - Gripmaster tool.

Rig systems, needle, stoppers - SEDO Intelligent Fishing Tackle

Gripmaster Crimp Tool

AVAILABLE SIZES

S - diam. 0.5mm

L - diam. 0.6mm

XL - diam. 0.7mm

PIECE / PACKAGE

1pcs tool

- **Knotless hook-link set-up**
- **Ergonomic handle design**
- **Light construction, easily stored**
- **3 crimp sizes**
- **Teflon coating over metal components**

The SEDQ Gripmaster Crimp Tool is the ultimate tool to achieve a knotless and perfectly sized hook-links every time. It can handle three different sized crimps (0.5 – 0.6 – 0.7 mm). Thread the line thru the one of the openings on the crimp then thru the swivel and back around thru the crimps other opening. Position the Gripmaster pleyer in the correct opening on the crimp and clamp down hard. The crimp will grip and hold the line with unmatched stability and force. The crimps are matched perfectly with our Horizon Fluorocarbon or Monster Snag leader hook-links. The Gripmaster plyers are Teflon coated and include a section of cutting edge for various situations.

Rig systems, needle, stoppers - SEDQ Intelligent Fishing Tackle

Grimpmaster Crimp Line

AVAILABLE SIZES

0.45mm

0.55mm

0.65mm

LENGTH

25m

- **Semi-stiff construction – perfect fit for rigs, with anti-tangle properties**
- **Invisible in water – transparent color, discreet appearance**
- **Ultra-strong breaking strain – reliable even in extreme conditions**
- **Easy to crimp – ideal for professional carp rigs**
- **Sizes: 0.45 mm / 0.55 mm / 0.65 mm**
- **Recommended crimp sleeves: 0.5 mm / 0.6 mm / 0.7 mm – increasing diameter for proper fit**

The SEDQ Grimpmaster Crimp Line is one of the most reliable choices for modern carp anglers when a hooklink is needed that is both discreet and extremely strong. Its semi-stiff construction not only fits perfectly into the rig but also provides anti-tangle properties, ensuring the rig always remains tidy and effective. Thanks to its transparent color, it is almost invisible underwater, so it will not spook even the wariest carp. At the same time, its ultra-strong breaking strain guarantees maximum security in extreme situations, snaggy environments or when playing specimen carp. We recommend it for pop-up, snowman and bottom bait presentations alike. When used as a combi rig, the suggested length of the soft braided section from the hook is 2–3 cm. It is also perfectly suitable for Ronnie rigs. The SEDQ Grimpmaster Crimp Line is available in three sizes: 0.45 mm, 0.55 mm and 0.65 mm. For perfect fixing, we recommend the following crimp sleeves: 0.5 mm for the 0.45 mm line, 0.6 mm for the 0.55 mm line, and 0.7 mm for the 0.65 mm line – ensuring precise and reliable fitting. Easy to crimp, it is ideal for building professional carp rigs. We specifically recommend using it with the Grimpmaster Crimp Tool and the corresponding sleeves.

AQUALINE MAIN LINES

UV-PROTECTED

The SEDO - Aqua lines are manufactured with the latest Japanese technology from the best copolymer materials for the best fishing line possible suitable for all situations.

The SEDO Aqua Crystal line given its invisible properties is recommended for gravel pits, where water conditions are clear or in situations where concealment is a must.

- **Extremely supple**
- **High abrasion resistance**
- **High tensile strength and excellent knot strength**
- **Super low memory**
- **UV protection**
- **Ultra Black – low-reflection, non-glare black color**

SEDO Aqua lines are manufactured using the most advanced technology from Japanese CoPolymer raw materials, designed to withstand the highest levels of stress across all areas of angling. The Ultra Black color offers a key advantage by being hard to detect underwater and non-reflective, providing effective concealment even in clear water or when targeting cautious fish. The line is produced from a sinking material, allowing it to be tightened easily after impact, resulting in improved line control. SEDO Aqua lines are extremely supple, easy to handle and simple to knot. During the final stage of knot tightening, the line does not burn, and the knot remains intact and undamaged as it is drawn tight.

The line is characterized by exceptionally high tensile strength, both at the knot and without knots. Its super low memory prevents damage or permanent deformation caused by external influences during use. Upon setting the hook, the line provides immediate contact with the fish, and during the fight it helps maintain control over powerful runs, resulting in precise feedback and safer fish playing. The final stage of the manufacturing process applies a UV-protective coating, which shields the line from sunlight and various environmental effects. This prevents sudden degradation or loss of performance during use, ensuring a durable monofilament line with consistent quality over time.

- **Designed for distant casting**
- **Tapered casting leader**
- **For feeder and carp fishing**
- **Sinking - High abrasion resistant**
- **Low stretch - low memory material**
- **Invisible - clear color**

The SEDQ – Ultimate Tapered Line specifically designed leader for distant casting. The tapered leader will tie onto the main line at the lowest diameter “tip section”, while the larger diameter “butt section” will carry all the weight of the end tackle and lead during casting at long distances. After attaching the leader just spool up all the 10 meters to the main line. The low-memory and low-stretch material will cast perfectly running thru the rod eyes without any effort maximizing the casting distance. Every package contains 5 x 10m leaders. It is available in 4 sizes while small diameter versions are recommended for feeder, the larger diameter versions are recommended for carp fishing. Also perfect for any baiting, spomb and marker setup.

4-strand (4X) braided line

- **Precise, round cross-section design**
- **High tensile strength and excellent knot strength under heavy load**
- **Ultra Soft construction – supple feel, smooth line flow**
- **Robust braiding structure**
- **Waterproof outer coating**
- **Ultra-high molecular density inner protective layer**
- **Double-coated construction for increased abrasion resistance**
- **Low stretch, true-to-diameter**

construction

- **Native Olive color – natural-looking shade**

The Masterline 4X Aero Braid Mainline – Native Olive is a modern-designed, 4-strand braided line developed with a strong focus on smooth line flow, efficient casting and long-term reliability. Thanks to its precise manufacturing process, the line features a perfectly round cross-section and accurate diameter, ensuring even load distribution and stable behaviour under tension.

The Ultra Soft construction not only provides

a supple feel but also allows the line to glide smoothly through the rod guides, contributing to longer casting distances, while making knot tying easier and improving knot reliability. Its high tensile strength and excellent knot strength allow safe use under heavy load, ensuring consistent performance during demanding fishing situations.

The robust braiding structure gives the line strength and stability, while the double-coated construction offers long-lasting protection. The waterproof outer coating supports smooth line flow, while the ultra-

high molecular density inner protective layer significantly increases abrasion resistance and overall durability, even in snaggy or weedy environments.

The Native Olive color provides a natural-looking appearance that blends well with the underwater surroundings. The Masterline 4X Aero Braid Mainline is an ideal choice for anglers looking for a reliable, durable, smooth-running and easy-to-handle braided line, where casting performance, control and strength are all equally important.

Spod & Marker Braid Line - SEDO Intelligent Fishing Tackle

Masterline 4X Aero Distance Braid SPOD & MARKER - HI-VIS YELLOW

DIMENSIONS

0.14

COLOR

Hi-Vis Yellow

LENGTH

200m

- **4-strand (4X) braided line**
- **Precise, round cross-section construction**
- **Aero Distance design - developed for smooth line flow and long-range spod and marker casting**
- **Ultra Soft version - supple feel, friction-free running and easy handling**
- **High tensile strength and excellent knot strength under heavy load**
- **Robust braiding structure**
- **Double-coated construction for increased abrasion resistance**

- **Waterproof outer coating for smooth line flow**
- **Ultra-high molecular density inner protective layer**
- **Low stretch, true-to-diameter construction**
- **Hi-Vis Yellow color**

The Masterline 4X Aero Distance Braid - Spod & Marker - Hi-Vis Yellow is an Ultra Soft, 4-strand braided line developed specifically for marker work and spodding. The Aero Distance design is optimized to support smooth line flow and long-range

casting, while delivering reliable and stable performance during continuous, high-load use.

The Ultra Soft construction provides a supple feel and friction-free movement through the rod guides, making repeated casting easier and improving overall line handling. Its high tensile strength and excellent knot strength allow safe and confident use with spod rockets and marker floats of different weights, even under extreme load.

The double-coated construction protects the line on two levels. The outer waterproof

coating reduces water absorption and supports smooth running, while the ultra-high molecular density inner protective layer significantly increases abrasion resistance and durability. The low-stretch characteristic delivers precise feedback during marker work, while the Hi-Vis Yellow color ensures excellent visibility for accurate line control. The 200 m spool is an ideal choice for dedicated marker and spod reels, where casting distance, control and long-term reliability are essential.

The SEDO, Masterline 8X Braided Line is manufactured with the latest technology. The unique characteristics will show right off at first handling. Uniquely strong and supple, with a perfect round shape, it will hold every knot perfectly performing at a very high level under the harshest conditions. We recommend it as a premium hook-link material. Ensures the natural movement of the bait under water while providing zero stretch translating every detailed movement to the angler during a fight. Recommended for carp, feeder, method feeder and float fishing.

Wrap Shrink Tube - SEDO Intelligent Fishing Tackle

Bait Protector Wrap Shrink Tube

DIMENSIONS

16-22mm

PIECE / PACKAGE

3

- **Complete bait protection**
- **Heat shrink tube**
- **Slim and flexible material**
- **Invisible**
- **Easy splice and customization for any hook-bait**
- **3/p**
- **For 22-16mm hook-baits**

The SEDQ – Bait Protector is recommended for venues where nuisance fish, cray fish and other non-desired species of fish can cause unwanted head-aches. After heat treat the wrap will perfectly protect our hook-bait from any exterior incursion waiting in perfect condition for our target fish. It will shrink accordingly over steam or heat from any open flame. Slim and invisible, virtually undetectable around any hook-bait. Making small incisions on the material before application will help the hook-bait to be more soluble letting out the attractants faster.

PVA bags - SEDO Intelligent Fishing Tackle

Quick Melting PVA Bags

Concentrate any bait, boilies, stick mixes, particles, or pellets around the hook-bait with ease. Fast melting with virtually no residue left behind even in the coldest temperatures. The system includes 5-meter-long premium mesh, water tight tube and plunger. Re-fills are available with the same quality micro mesh in 5m/pack.

PVA tape - SEDO Intelligent Fishing Tackle

PVA Tape Fast Melting

SIZES/PACKAGE

10mm x 20m

PIECE / PACKAGE

1

- Extra fast melting
- Premium PVA material
- Neutral PVA material, no flavor or residue
- Concentrated baiting
- 20m

The SEDQ PVA Tape is indispensable tool for a concentrated baiting. Use with boilies, half boilies or pellets. All season, extra fast melting in even the coldest of waters, leaves no residue or any kind of flavor behind. Only to be touched with dry hands as it does melt in 10 seconds after touching water.

Bait floss - SEDO Intelligent Fishing Tackle

High Waxed Bait Floss

SIZES

50m

PIECE / PACKAGE

1

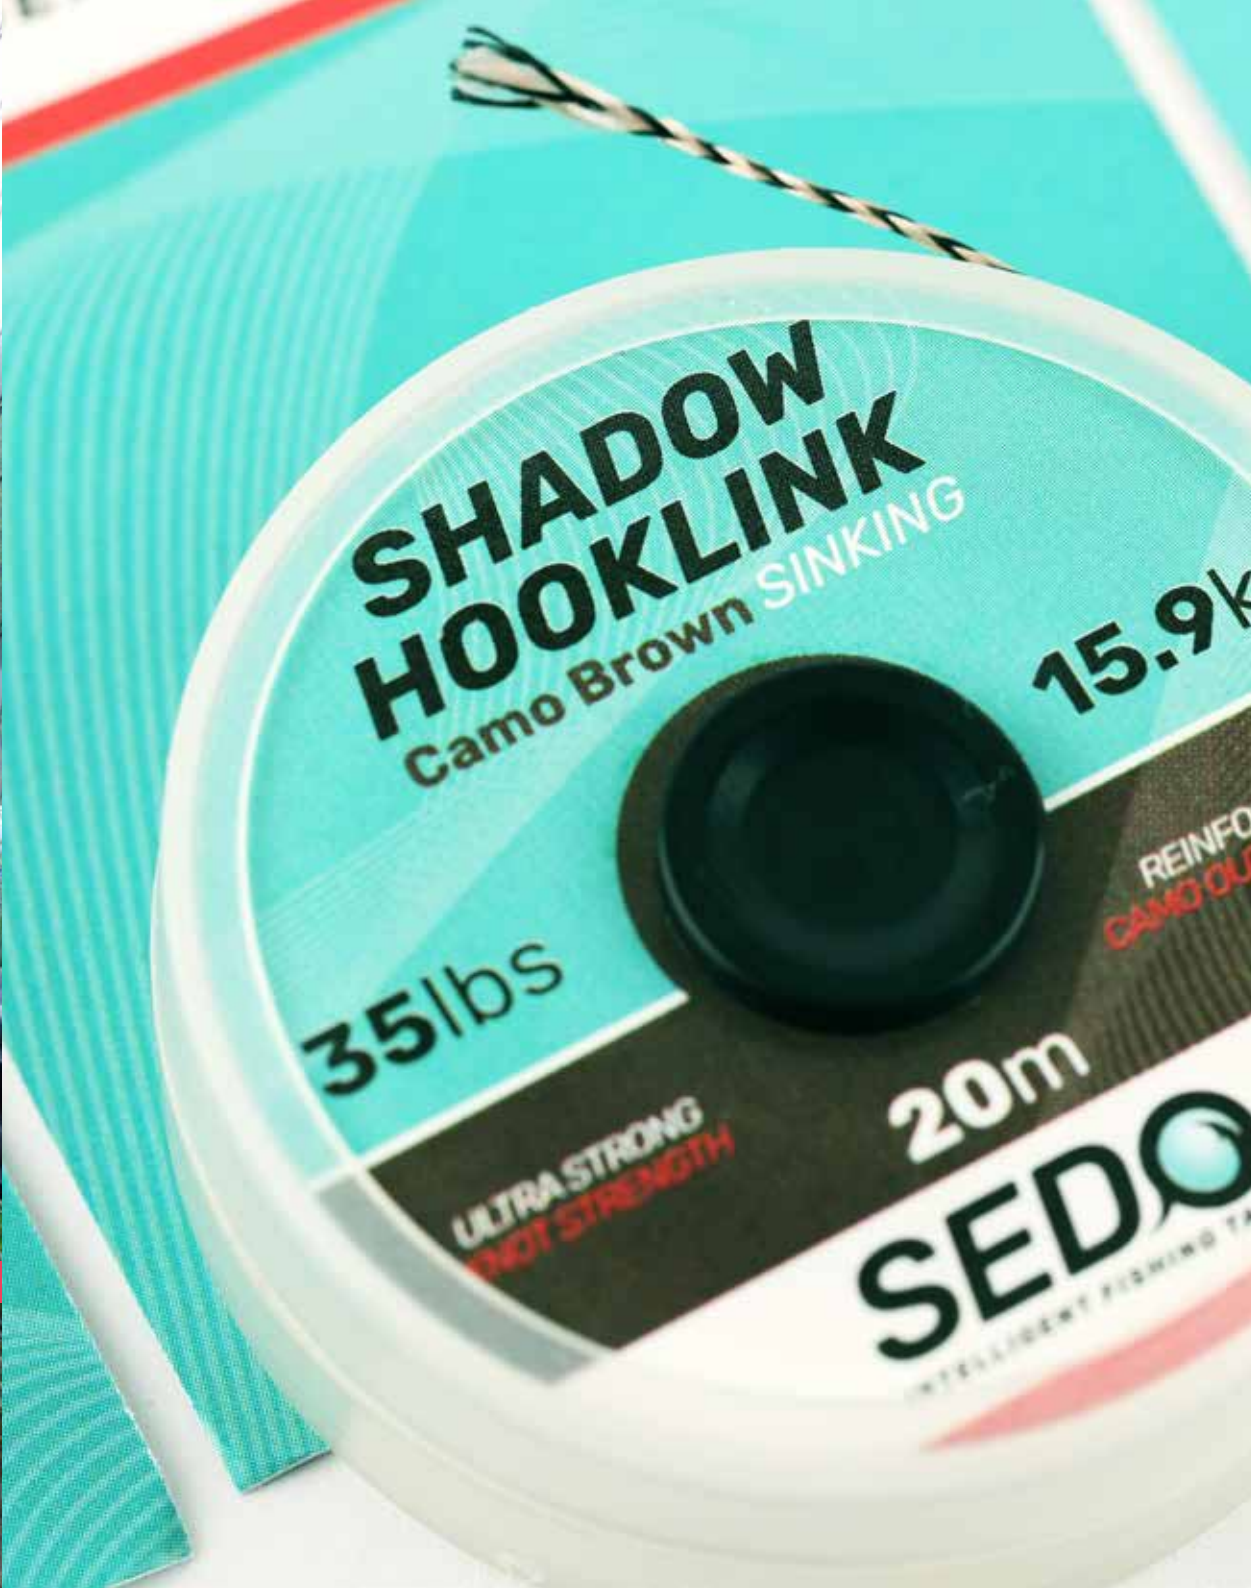

- 50m/spool
- Waxed
- Extra strength
- No smell or taste, completely neutral
- For any type of hook bait attachment
- Attach with lighter flame, or without

The SEDQ, High Bait Floss is a very simple and effective method to attach any hook-bait in any type of presentation. Alternative method to those who do not want utilize a bait stopper or bait needle. Double thread the floss thru a bait swivel, then the thru the bait. Burn off the access floss with a lighter. The wax will melt making a perfect stopper at the top side of the bait. A simple and effective way to stabilize and attach the bait in no time.

SEDO strives to meet the needs of
the modern, thoughtful carp angler

UNCOATED HOOKLINK

SHADOW series

SEDO strives to meet the needs of the modern, thoughtful carp angler. Our end tackle and hook types provide a wide range of reliable solutions for all types of anglers, from seasoned pros to the enthusiastic beginners. Our products especially serve sophisticated carp fishermen who are constantly monitoring the behavior of the fish and are therefore ready to adapt to changing circumstances. Whichever solution becomes necessary, they need the end tackle range to customize just the right solution.

Polarized Sunglass - SEDO Intelligent Fishing Tackle

Amber Deepwater

AVAILABLE COLORS

Deep amber / reddish-brown

PIECE / PACKAGE

1

- Deep amber / reddish-brown transparent frame
- Brown polarized lenses
- UV400 protection
- CAT 3 lens category
- SEDQ logo on the lens
- Ultra-lightweight design, weight: 18 g
- More vivid colors and stronger contrast
- Improved underwater visibility experience
- Reduces distracting glare from the water surface
- Comfortable all-day wear
- Ideal for fishing, driving, waterside use, and everyday wear
- Premium SEDQ EVA hard case
- SEDQ soft glasses pouch
- SEDQ microfiber cleaning cloth

The SEDQ Amber Deepwater polarized sunglasses are one of the lightest and most distinctive models in the collection. The deep amber, reddish-brown transparent frame gives the sunglasses a unique waterside character, while the brown polarized lenses provide an angler-friendly visual experience.

The polarized lenses reduce reflections from the water surface, wet surfaces, and roads. Under suitable light conditions, this can help you notice details below the water surface more easily, including bankside drop-offs, bottom structures, vegetation, shadows, or signs of fish movement. This is why amber / brown lenses are a popular choice among anglers: they do not only darken the view, but also make the image more contrast-rich.

V400 protection helps filter out harmful UV rays, which is especially important near water, where sunlight affects the eyes not only from above but also through reflections from the water surface. The CAT 3 lens category is designed for strong daylight, providing more comfortable and relaxing vision on sunny days.

The approx. 18 g weight is an outstanding advantage. These sunglasses belong to the ultra-lightweight category, so they do not pull on the nose, do not press on the face, and do not become uncomfortable even during all-day fishing. For anyone spending long hours by the water, this comfort quickly makes a noticeable difference.

Polarized Sunglass - SEDO Intelligent Fishing Tackle

Black Eclipse

AVAILABLE COLORS

matt fekete

PIECE / PACKAGE

1

- Sporty matte black frame
- Grey / smoke polarized lenses
- UV400 protection
- CAT 3 lens category
- SEDQ logo on the lens
- Ultra-lightweight design, weight: 25 g
- Lightweight and comfortable fit, even during extended use
- Reduces distracting glare from the water surface
- More natural color perception in strong sunlight
- Ideal for fishing, driving, and waterside use
- Premium SEDQ EVA hard case
- SEDQ soft glasses pouch
- SEDQ microfiber cleaning cloth

The SEDQ Black Eclipse polarized sunglasses are a clean, sporty model designed for those who are looking for comfortable and reliable sunglasses for waterside use, driving, and everyday wear. The matte black frame gives the sunglasses a strong, modern, and understated character, making them easy to match with fishing gear, casual clothing, and active outdoor use.

The grey polarized lenses help reduce distracting reflections from the water surface, wet surfaces, and roads. During fishing, this is especially useful because glare can often tire the eyes and hide changes on the water surface, shadows, movement near the bank, or details in shallower areas.

The grey / smoke lenses provide a more natural color perception, making them an excellent choice for strong sunlight, open water, boat use, driving, and everyday use. They do not overly alter the colors of the environment, making this model ideal for anyone looking for a versatile pair of polarized sunglasses that can be worn comfortably throughout the day.

UV400 protection helps filter out harmful UV rays, which is especially important near water, where sunlight affects the eyes not only from above but also through reflections from the water surface. The CAT 3 lens category is designed for strong light conditions, providing more comfortable and relaxing vision on sunny days.

Polarized Sunglass - SEDO Intelligent Fishing Tackle

Carbon Deepwater

AVAILABLE COLORS

Brown polarized lenses

PIECE / PACKAGE

1

- UV400 protection
- CAT 3 lens category
- Unique carbon pattern frame
- Lightweight 25 g design
- Stronger contrast and more vivid colors
- Improved underwater visibility experience
- Comfortable all-day wear
- Ideal for fishing, driving, and general outdoor use
- Package contents: SEDQ EVA case, soft glasses pouch, microfiber cleaning cloth, paper box

The SEDQ Carbon Deepwater polarized sunglasses are designed for those who are not only looking for a great-looking pair of sunglasses, but also want real support at the waterside. The unique carbon pattern frame provides a sporty, distinctive, and premium appearance, while the brown polarized lenses are an especially good choice for anglers who want to see better below the water surface and notice bottom structures, details near the bank, or even signs of fish movement more easily.

Thanks to UV400 protection, the sunglasses provide reliable protection against harmful UVA and UVB rays. The CAT 3 classification makes them ideal for stronger daylight, sunny weather, and intensive waterside use. This model can be an

excellent choice for carp anglers, lure anglers, boat anglers, and it also works well for driving, hiking, or everyday wear.

The approx. 25 g weight is a major advantage, as these sunglasses belong to the lightweight category. They remain comfortable even during long wear and do not feel heavy on the face, making them comfortable for all-day use. This is especially important when you spend long hours at the waterside and do not want to deal with a heavy, uncomfortable frame.

Polarized Sunglass - SEDO Intelligent Fishing Tackle

Carbon Eclipse

AVAILABLE COLORS

Grey / smoke polarized lenses

PIECE / PACKAGE

1

- Sporty premium carbon pattern frame
- Grey / smoke polarized lenses
- UV400 protection
- CAT 3 lens category
- SEDQ logo on the lens
- Lightweight and comfortable fit
- Ultra-lightweight design, weight: 25 g
- Reduces distracting glare from the water surface
- More natural color perception in strong sunlight
- Ideal for fishing, driving, and waterside use
- Premium SEDQ EVA hard case
- SEDQ soft glasses pouch
- SEDQ microfiber cleaning cloth

The SEDQ Carbon Eclipse polarized sunglasses are designed for anglers who want more than just clear vision at the waterside – they also want a refined, premium look. The carbon pattern frame instantly gives this model a special character: sporty, modern, and distinctive, without being excessive. It is a pair of sunglasses that performs just as well during fishing as it does while driving or for everyday wear.

The grey polarized lenses effectively reduce distracting reflections from the water surface, wet surfaces, and roads. During fishing, this is especially useful because glare can often hide the small details you need to pay attention to, such as changes on the water surface, shadows, movement near the bank, or details in shallower areas.

UV400 protection helps filter out harmful UV rays, which is especially important near water, where sunlight affects the eyes not only from above but also through reflections from the water surface. The CAT 3 lens category is designed for strong light conditions, providing more comfortable and relaxing vision on sunny days.

Thanks to its 25 g weight, the Carbon Eclipse remains comfortable even during long periods of wear. It does not pull on the nose or create unnecessary pressure, making it an ideal companion for all-day fishing sessions, trips, driving, or relaxing by the water.

- **High Carbon Steel**
- **Black nickel coated**

Reaching back to the early days of traditional Japanese hook making, this design very well could be one of the first ones. Thicker body construction and a traditional hook bend separates this hook from the average.

WIDE**G** CARP

NEON WIDE**G** CARP

- **Traditional big fish boilie hook**
- **Advanced Japanese steel technology and industrial forging process for durability**
- **Teflon coated with reinforced construction**
- **Extremely sharp**

The NEON WideG Fishing Hook goes back to the roots of carp fishing; it features a traditional design that continues to be one of the most widely used even to this day. The short shank, inward leaning hook point all combine for a highly versatile hook. Perfect for any presentation, performs well in any environment.

CURVED CARP

NEON CURVED CARP

- **Modern big fish design**
- **Advanced Japanese steel technology and industrial forging process for durability**
- **Teflon coated with reinforced construction**

One of the most popular hook designs for boilie fishing. Excellent hook-hold even without an aligner. Inward bent hook shaft and straight, very sharp hook point makes this a true favorite amongst boilie anglers. Recommended for any snow man, pop-up or bottom bait presentations. A true all rounder that can do it all whether it be on wild or open water, river or paylake.
